

Fake Quantum Pendants Seized By Philippines Customs Department!

More than 50 boxes or 5,000 fake Quantum Pendants manufactured in China were seized by the vigilant Customs Enforcement Department of Philippines recently.

Customs Deputy Commissioner Horacio Suansing Jr., said these fake Quantum Pendants will be destroyed by steam-roller or burning for violation of the Intellectual Property Code and the Tariff and Customs Code of the Philippines and legal action will be taken against the violators.

This apprehension will serve as a stern warning to those who are involved in illegal trade to stop their criminal activities and a warning to all the consumers that these fake products may be hazardous to public health.

FusionExcel once again congratulates the Customs Enforcement Department of Philippines for a splendid job done!
